Objective: Software Developer

SUMMARY:

I'm a Front-End Developer with a Bachelor's degree in Software Engineering. Skilled in building responsive, user-friendly web applications using React, JavaScript, SCSS and modern web technologies. Committed to writing clean, maintainable code while continuously learning new tools and best practices to deliver efficient, high-quality solutions.

SKILLS:

- Practical experience with **React** and its ecosystem (**Context AP**I, **Redux Toolkit**, **React Router**)
- Proficiency in **HTML5, jQuery, CSS3, SCSS, Javascript, Typescript**
- Knowledge of **Java, Spring Framework,** knowledge of **HTTP**

- Knowledge in **data structures, algorithms, web programming concepts**
- Experience with **REST** and **MVC** architecture
- Understanding on **Object Oriented Programming concepts (OOP)**
- Knowledge of database technologies (**SQL**)
- Strong knowledge of **Git**
- Understanding of **responsive design,** User Interface **(UI)** and User Experience **(UX)** best practices
- Proficient in **styled-components** and **Emotion**
- Proficient in graphic design software: **Photoshop, InDesign, Figma, Adobe XD, Illustrator**
- Microsoft Office suite

Languages: English (full professional proficiency), Polish (professional working proficiency), Russian (bilingual proficiency), Ukrainian (native proficiency), French (elementary proficiency)

Soft skills:

- Rapidly learning new tools and applying them effectively from day one.
- Attention to detail and passion for delivering polished results.
- Genuine curiosity and deep engagement with every project I join.
- Balancing technical precision with a creative mindset.
- "Can do" attitude.

EDUCATION:

- Engineering studies in the field Software Engineering (University of Business in Wrocław) — **September 2019 - February 2023**

- Meta Front-End Developer Professional Certificate — **October 2025**

EXPERIENCE:

FQA Tester GlobalStep embedded for Ubisoft, Montreal, Canada — **September 2024 - now**

Cashier TimHortons, Mercier, Canada — **March 2023 - December 2024**

Assistant shift manager/crew member KFC, Poland — **March 2021 - July 2022**

LATEST PROJECTS:

Portfolio Website (React, SCSS, HTML, JavaScript, GSAP, React Hooks, Props Drilling)

https://levtsun-yevheniia.github.io/PortfolioWebsite/

Designed and developed a minimalist, interactive portfolio website to showcase my skills, projects, and resume. Implemented smooth **GSAP** animations, custom cursor effects, and scroll-based transitions to enhance user engagement. Built with **React**, **SCSS**, and modern **JavaScript** for a responsive and intuitive browsing experience.

E-Commerce Store (React, Redux Toolkit,React Router v6, TypeScript, SCSS)

Yourstylishontario.infinityfreeapp.com

- Developed a fully functional e-commerce web application featuring product browsing, search, filtering, and cart management.
- Handled data fetching and backend communication using **Fetch and Axios**.
- Leveraged React ecosystem tools: **Hooks, Context API, Props Drilling**, and **ref forwarding** to manage state and component interactions effectively.
- Developed a scalable architecture that ensures maintainability and ease of testing.
- Designed and developed from concept to deployment, strengthening my full-cycle development skills and refining my ability to design and implement complex user interfaces.
